Allah's 5%

February 15, 111 AC

Peace! February marks the month of the Father's Equality Born Righteously Understanding Allah's Rule You. Father Allah was physically born on February 22, 1928, as Clarence Edward Smith. In this solar cycle, his physical degree would have been Born Build or Destroy. Yet even beyond the physical, his presence continues.

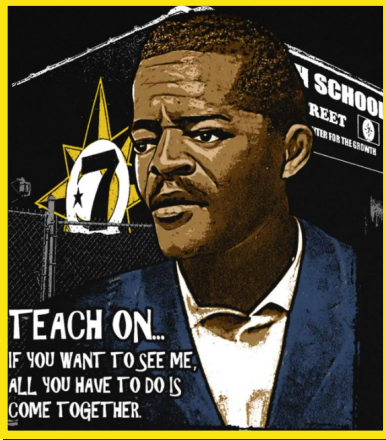

Indeed, Allah left us a legacy that moves through generations like a steady current of rejuvenating, fresh stream water. His impact was not rooted in spectacle or performance, b.u.t. in the science of living the culture of I-God uncompromisingly. He unapologetically taught that the Original Man is God, a self-defined, self-governing, and responsible Original Man who is a positive and productive asset and leader to his family, community, and Nation.

More importantly, Allah the Father's love for his people, specifically the youth, was paramount in both his teaching and daily living. He did not ask for blind belief. Rather, he taught that through critical analysis, thinking, researching, and examining that which he taught, we would prove him right or wrong, and in doing so, make the teachings our own. He encouraged knowledge of self, individual study, reasoning, and the application of what we had proven to be true and correct. Through this process, we became his true and living sons and daughters.

Furthermore, through Supreme Mathematics and Supreme Alphabets, Allah the Father gave us tools, not chains. These tools made us free thinkers and leaders of self and society. Not merely participants in the colored man's society, but architects of the society Allah was commissioning us to build: Allah World Manifest.

He brought together youth, many of whom were once enemies, and unified us into one body. In the Supreme Alphabets, he called us a Nation. This is Knowledge, Culture, and Freedom, the very way in which he was leading us. Had unity not been his intent, he would have left us in our petty differences and delusions of grandeur.

Instead, Allah the Father had us moving as one body, regardless of whom or what. Titles, names, locations, who had knowledge longer, or who walked physically with the Father, none of these were permitted to disunite us or cause division. That is not the Nation Allah built. That is not Allah World Manifest. Allah did not work to restore our divine identity in this day and time only for us to replace it with surface titles that divide us.

Therefore, as Allah's Gods and Earths, we must be disciplined enough to see beyond the illusions and delusions of the devil's social equality. Why do they call our people African? What does this lesson teach us? These questions require more than surface answers.

As Universal Shaamgaudd stated, Allah gave us the Knowledge and Wisdom, and many will take the Knowledge and Wisdom and run with it; however, in order to see and live the future, you will need the Supreme Understanding. And Supreme Understanding teaches us this: although Allah's physical presence, born February 22, 1928, has passed, his legacy remains alive, walking and talking in his true and living sons (Gods) and daughters (Earths).

Thus, we must continue to pave the way he led, the way of unity in divine righteousness and civilization, I-God. We must build what he commissioned us to manifest. This is the Father's Equality Born Righteously Understanding Allah's Rule You. Peace!

### *Understanding Self Allah*

Peace! Earths, understand this clearly: Allah did not free the mind of the God to leave you confined. He did not teach Knowledge of Self to ignore your divine nature. He did not build a Nation without building you.

You are not just supporters of the Nation. You are the soil of the Nation. You are the civilization of the Nation. You are the cultivators of the future.

Now the question becomes: How do we continue to implement and elevate Allah World Manifest? We do so with discipline and intentional action.

First, we commit to daily study and application of Supreme Mathematics and Supreme Alphabets, not as slogans, but as a living science. Knowledge in every way must be studied. Wisdom must be applied. Understanding must be demonstrated and understood. This is how we honor Allah, by living what he taught.

Second, we strengthen family structure. Allah built with the youth, but he built through family. Earths elevate Allah World Manifest by nurturing righteous environments, teaching identity to our babies early, and protecting the mental and physical development of the babies. Gods elevate it by leading responsibly, protecting, providing structure, and exemplifying discipline.

Third, we unify beyond ego. Titles, time in the Nation, personal differences, none of these outweigh the greater mission. Allah moved us as one body. To elevate Allah World Manifest, we must reject division, gossip, and surface status. Unity is not optional, it is foundational!

Fourth, we build institutions and solutions. Study groups. Youth programs. Economic circulation. Conflict resolution rooted in righteousness. Civilization is not declared with words but demonstrated through order. Each cipher should reflect order, respect, and productivity.

Fifth, we honor the Earth visibly and structurally. Protection, consultation, and respect must be active, not symbolic. When Earths are strong, the Nation is too. When Earths are secure, the future is secure.

And finally, we honor Allah as we honor ourselves.

Allah reminded us of our divine identity. To dishonor ourselves is to dishonor that divine reminder of who we are. To walk in discipline, cleanliness, righteousness, and responsibility is to honor him. To see ourselves as divine and act accordingly is to honor him. To elevate our thinking beyond petty conflict and social illusion is to honor him.

Allah's physical presence, born February 22, 1928, may have passed, b.u.t. Allah World Manifest lives when we embody the teachings. It lives when Gods lead without ego. It lives when Earths stand in dignity without compromise. It lives when the babies know who they are before the world tries to define them. It lives when we move as one Nation now!

Earths, you were always in the plan. You were always in the build. You were always loved. And now, just like the Gods, we must continue the work, consciously, collectively, and righteously.

This is how we elevate Allah World Manifest. This is how we honor Allah, which is by honoring ourselves. Peace.

Star's Corner

"Let's grow, learn, and shine together!"

We are so excited to have you with us! Star's Corner is a safe and joyful space where our children shine through learning, creativity, and culture. Here, we build together just like we are at Parliament or a social equality reading, solving puzzles, exploring history, and celebrating who we are. Parents, thank you for sharing your stars with us. Babies, remember: you are bright, powerful, and loved.

Show Us Your Shine! Did you earn a school award, certificate, or special recognition? Bring those grades home with pride, whether it's A's, B's, or simply showing growth, we want to celebrate YOU!

We also love seeing your creativity in action. Share photos of what you baked, built, or wrote. And don't forget our favorite, grab a book, hold it up high, and snap a picture of yourself reading.

Let's showcase the many ways our babies shine bright by emailing: thefruitsofeden@gmail.com

\*\*\*KEEP SHINING!\*\*\*

At Star's Corner, we believe every child is a star waiting to shine brighter through the power of reading. Our Read & Shine Program encourages children to explore stories that expand their minds, strengthen their character, and connect them to culture and truth. Families are invited to submit reading logs and photos of their reading adventures because every page turned is a step toward brilliance!

Star Highlight: Kyera

This month, we are proud to highlight one of our shining stars, Kyera, a dedicated 10th grader who proves that quiet strength speaks volumes.

Kyera is quiet, unique, and deeply intelligent. She may not always be the loudest in the room, but her focus, discipline, and determination make her presence powerful. She understands that excellence does not require noise, it requires consistency. We are proud to celebrate that Kyera earned Honor Roll for each semester this school year! That kind of achievement shows commitment, time management, and a strong belief in her own potential.

WORD OF THE MONTH: CIRCULATION

Circulation (say it slowly: sur-kyuh-LAY-shuhn) is when money moves from one person to another, especially inside our own community by buying, selling, sharing services, that is circulation. It means we keep our money flowing among us to promote, create, and maintain businesses, programs, and opportunities, by us, for us.

You buy a bracelet from a friend. Your friend uses that money to buy snacks from another small business. That business owner uses the money to buy school supplies for their child all in our communities. That's circulation!

MONTHLY CHALLENGE: Find one Black-owned or local business to support.

SUPREME MATHEMATICS: Which principle in Supreme Mathematics helps us understand why money moving in our community is good for us?

Welcome to Star's Corner
